INSIGHTS & RECOMMENDATIONS

Insight 1
January was the peak revenue month at **₹1,55,536**, followed by February (₹1,54,376). March dipped to ₹1,27,776 — warranting investigation.

Insight 2
Premium Tea Gift Hamper is the #1 SKU at ₹69,180 net revenue — a high-ticket item driving disproportionate value.

Insight 3
Website drives **51.2%** of revenue. Instagram contributes 34.8% — a strong secondary channel worth investing in.

Insight 4
Return/Cancellation rate is **23.1%** — high for D2C. Returned + Cancelled orders reduce net revenue significantly.

Insight 5
North-East region (brand's home) underperforms vs South & North — significant untapped potential in the home market.

Recommendation 1: Allocate 60% of Q2 marketing to Website SEO + Instagram reels targeting chai/wellness audiences to sustain and grow the Jan–Feb revenue levels.

Recommendation 2: Launch a North-East awareness campaign with local Guwahati/Shillong influencer partnerships and a 'hometown pride' discount to unlock the brand's home market.

Revenue Rule: Cancelled orders are EXCLUDED from Net Revenue (Net Revenue = Rs. 0 for Cancelled). Returned orders are also excluded from revenue. | Data: 400 raw orders · 398 clean orders · 15 data issues fixed · Jan–Mar 2026
